ICATT Career Academy

Credentialed Certificate Training Programs

The value of industry-recognized certifications cannot be underestimated. An Industry Recognized Certification is an education and work-related credential, which verifies an individual's qualification or competence. The certification is issued by a third party that has relevant authority to issue such a credential. ICATT offers the following five programs:

1	**Scaled Agile Framework (SAFe)** **Product Owner/Product Manager (POPM)**

Develop the skill sets needed to guide the delivery of value in a Lean enterprise by becoming a Scaled Agile Framework (SAFe®) Product Owner/Product Manager (POPM). Attendees gain an in-depth understanding of how to effectively perform their role in the Agile Release Train (ART) as it delivers value through Program Increments. Attendees explore how to apply Lean thinking to decompose Epics into Features and Stories, refine Features and Stories, manage Program and Team backlogs, and to plan and execute Iterations and Program Increments. Attendees also discover how the Continuous Delivery Pipeline and DevOps culture contribute to the relentless improvement of the ART. Learning objectives are:

- Articulate the Product Owner and Product Manager role

- Connect SAFe Lean-Agile principles and values to the PO/PM roles

- Decompose Epics into Features and Features into Stories

- Refine Features into Stories

- Manage Program and Team backlogs

- Collaborate with Agile teams in estimating and forecasting work

- Represent Customer needs in Program Increment Planning

- Execute the Program Increment and deliver continuous value

Tuition:

The regular tuition is $1985 per student. For a 15% discount, ask your sales rep for a discount code to secure discounted tuition fee.

Included are:

- Delivered via virtual training

- Training material for all participants included in this price
- Training delivery by qualified and specialized instructors
- Includes 2 attempts at taking the exam to qualify for certification
- Includes 1 year of membership to the SAFe® Community Platform
- 2 Full Days/4 Half Days Bootcamp
- Coaching assistance available for 90 days after Bootcamp to develop portfolio
- Informational Interview Career assistance for a year after Bootcamp to boost employability
- One year access to Monthly Cohort refresher and exam prep webinars on related topics
- A voucher to take certification examination

2	CompTIA A+ Certification Training Program

The CompTIA A+ certification has been described as an "entry-level rite of passage for IT technicians," and for a good reason. This certification is designed for folks seeking a career as a help desk, support, service center or networking technician. It covers PC and laptop hardware, software installation, and configuration of computer and mobile operating systems.

A+ also tests a candidate's understanding of basic networking, troubleshooting and security skills, which serve as a springboard for CompTIA networking or security certifications or those offered by other organizations. According to CompTIA, more than one million IT professionals hold the A+ certification. The A+ is required for Dell, Intel and HP service technicians and is recognized by the U.S. Department of Defense.

The Computing Technology Industry Association (CompTIA) is a non-profit trade association, issuing professional certifications for the information technology (IT) industry. It is considered one of the IT industry's top trade associations. Based in Downers Grove, Illinois, CompTIA issues vendor-neutral professional certifications in over 120 countries. The organization releases over 50 industry studies annually to track industry trends and changes. Over 2.2 million people have earned CompTIA certifications since the association was established.

Tuition

The regular tuition is $2750 per student. For a 15% discount, ask your sales rep for a discount code to secure discounted tuition fee.

Included are:

- Delivered via virtual training
- Training material for all participants included in this price
- Training delivery by qualified and specialized instructors
- Includes 2 attempts at taking the exam to qualify for certification

- 5 Days Bootcamp
- Coaching assistance available for 90 days after Bootcamp to develop relevant portfolio
- Informational Interview Career assistance for a year after Bootcamp to boost employability
- Access to Monthly Cohort refresher and exam prep webinars on related topics for a year
- A voucher to take certification examination

3	**CompTIA Network+ Certification Training Program**

CompTIA Network+ certification. It's geared toward professionals who have at least nine months of networking experience. A candidate must be familiar with networking technologies, media, topologies, security, installation and configuration, and troubleshooting of common wired and wireless network devices.

The Network+ certification is recommended or required by Dell, HP and Intel, and is also an accepted entry-point certification for the Apple Consultants Network. The Network+ credential meets the ISO 17024 standard and just like the A+, it is recognized by the U.S. DoD.

The Computing Technology Industry Association (CompTIA) is a non-profit trade association, issuing professional certifications for the information technology (IT) industry. It is considered one of the IT industry's top trade associations. Based in Downers Grove, Illinois, CompTIA issues vendor-neutral professional certifications in over 120 countries. The organization releases over 50 industry studies annually to track industry trends and changes. Over 2.2 million people have earned CompTIA certifications since the association was established.

- Informational Interview Career assistance for a year after Bootcamp to boost employability
- Access to Monthly Cohort refresher and exam prep webinars on related topics for a year
- A voucher to take certification examination

4	CompTIA Security+ Certification Training Program

CompTIA Security+ covers network security concepts, threats and vulnerabilities, access control, identity management, cryptography, and much more. Although CompTIA does not impose any prerequisites, the organization recommends that cert candidates obtain the Network+ credential and have at least two years of IT administration experience with a security focus.

The Computing Technology Industry Association (CompTIA) is a non-profit trade association, issuing professional certifications for the information technology (IT) industry. It is considered one of the IT industry's top trade associations. Based in Downers Grove, Illinois, CompTIA issues vendor-neutral professional certifications in over 120 countries. The organization releases over 50 industry studies annually to track industry trends and changes. Over 2.2 million people have earned CompTIA certifications since the association was established.
